# City of Miracles INTERNATIONAL

## OUR MISSION

Building stronger communities by developing stronger characters-one soul at a time.

To impact a person's mind and heart while assisting them to find the tools to improve their lives and character.

**Kathryn & Todd Gordon Sr. Founders** realized that the decline of the neighborhood was mostly due to the problem of lack of resident education about community services which the city, state and county provide. These services offer job opportunities, personal development, educational grants, affordable housing, one-on-one tutoring and family guidance through government and other non-profit organizations.

The mission includes caring about the neighbors enough to bring the community services to them and involve them in the outreach as a neighborhood effort. It includes inviting the area residents to take part in specific programs offered by the community. It offers the neighborhood children the extra opportunity to improve reading skills and therefore contribute to a measurable positive

Todd & Kathryn Gordon Sr., Founders

impact upon the community.

We must provide area neighborhoods the opportunity to change their lives in a direct way. In order to help change a person's direction, we must meet their physical, financial, family, social and spiritual needs. With the help of those who want to improve the neighborhoods, we can make a difference, one community at a time!

## OUR OVERALL GOAL

Our goal is to help minimize the negative impact that poverty, drugs and other social illnesses have on the community; and to address the humanitarian needs of the people by showing them services that the community has to offer.

The overall goals of these festivals are to promote unity and create an all inclusive community, provide opportunity and access to local social service organizations. This includes providing free: school supplies, educational materials, health screenings, food, drinks and family friendly entertainment.

## The Community Services

### Positive impact on the community

Some of the many successes resulting from these annual festivals:

#### Quick Fact:

The Festivals utilize the resources of State and Local Government, local corporations and churches to promote job opportunities, a drug free community and social and spiritual support through activities and information made available at the festivals.
